## FEATUES

The Edis 1080P LCD Portable Projector is Android TV 10 with diverse content and multiple apps allow you to download from Google Play Store and stay entertained for hours. Built-in Google Assistant supports different languages. Voice search remote allows for convenient operation. Projection size compatible from 32" to 240" with a projection distance of 1.1 to 2.53m. With 4D  $\pm 45^\circ$  keystone correction. This projector supports vertical and horizontal image correction, ensuring you see a balanced picture from any angle and greatly reducing eye strain from blurry images. Dongle with dual 2.4G/5GHz Wi-Fi, and the smart projector supports wireless screen mirroring through MiraCast and Chromecast. Full HD 1080P Native projector utilizes the LCD display technology to deliver a remarkably bright 200 ANSI-lumen, and show 225% more detail than other 1080p supported projector in the market. The built-in dual stereo surround speaker creates an incredible sound bubble and provides you an immersive viewing experience. The portable projector is 40% smaller than other counterpart projectors. You can enjoy movies, videos, and games no matter at home or in the outdoor yard, travel, camping, and other location. Made from soundproofing materials, this projector makes less than 32 decibels of noise, almost feeling like a whisper.
