● Multi-function Control panel

The control panel has distinct gradations for precise adjustment. The layout is clear and distinguishable. Super MP3 decoding technology, USB and TF card.

● Music, instrument, microphone. three independent IC control

The combined EQ equalization effect, DSP sound effect and the sound quality is distinct and adjustable.

SPECIFICATION

Power output	120W
Charging Voltage	DC 18V, 1.66A
Lithium Battery	14.2V 10000mAh
Working time	8~9 hours
Charging time	6-8hours
Product size	472*355*225mm
Product size	18.58*13.9*10.04in
Unit weight	19.73lb
Available color	black,red
Working temperature	-10°C~45°C
Frequency response	70Hz~20KHz
