EAN: 5060848901063

FEATUES

● 5K front and rear dual screen displays

Super clear picture quality, 20 megapixels, 170° wide-angle shooting, 40 meters waterproofing depth, WiFi, IPS full-view screen, EIS anti-shake, time-lapse shooting and other functions, you can enjoy the experience together with a 64GB TF card and all accessories included.

● Smart image stabilization

Picture details are stable and smooth during camera movement, without blurring of the recorded video.

The 170° wide Angle lens has no distortion, and an enlarged field of vision, clear imaging and maintains the picture textures

● 40 metre Deep water capability

The exclusively designed waterproof and durable shell case supports 40m underwater shooting. The battery capacity is 1,050 mah for long term shooting. The WiFi function enables remote control of the camera from a mobile phone through the camera app
