5v 3.4Amp Dual USB charger

Edis

SKU: EAN:

FEATUES

●"Self extinguishing" safe fireproof material

2 port USB charger with ABS fireproof case, high strength flame retardant product that ensures safety when in use.

●"Protective" security chip

Comes with 6 protective functions. When the power supply is abnormal, the output is automatically cut off. Synchronous rectification design, dual-port intelligent output, self-adaptive charging current, single-port output current is 2A, and dual-port charging output current is 1A

●Smartphone universal

Compatible with most smart phones on the market intelligent adjustment resistor can automatically adjust the charging current

●Stable and long life

New circuit layout, re-adjusts and optimizes the position and spacing of components, reduce the interference between components, and greatly improve the service life and temperature control of products.

●It doesn't burn easily

When the charger is working normally, the temperature is kept below 40°C, which is close to the normal body temperature emphasising it's safety features.

SPECIFICATION

USBA1 Output	5VI2.4A
USB-A2 Output	5VI2.4A
Output voltage	5V-3.4A , Single 2.4A max, Dual Total 17W max
Input voltage	100-240V-50/60Hz,0.5A Max
Certificate	U L, FCC, CE,PSE
Ports	2 X USB-A
Housing MaterIal	PC
Plug	US UK AU EU JP KR CN plug optional
Weight	49.8g (Us plug)
Size	65.2*29*56mm
