

Activity Tablet for Care Home Residents

SKU: 0450040

FEATUES

The Edis 24", 27" and 32" Activity tablets for care homes are mounted on mobile and fully ajustable stands to provide mental stimulation, hand and eye co-ordination, large screen size close to the user to reduce eyesight, co-ordination and agility problems and a host of 50 or more tantalising and informative Apps and content to entertain plus the ability to hold online video links with family and friends using voice and video connectivity. Our Care Home tablets come pre-installed with over 50 Android apps to get started, we then show you how to add more during your handover training. Tablets have an Android cpu with camera and speakers, Bluetooth, Wifi and LAN connection. New Apps can be downloaded by residents from Google Play store allowing access to thousands of free Android apps/content so experience is almost unlimited.

The angle and high of the screen is fully adjustabl to suit residents choice of use when seated or at bedside etc. Content can easily be shared with other residents and with family and friends remotely. Braked castors ensure a safe lock down of the touchscreen table, once it's in the correct place.

The type of content and apps use include:

- Personal or shared use
- Video calling – Zoom, Messenger, Skype, etc
- Watching online TV or downloading videos, films, Youtube etc
- Listening to music
- Playing musical instruments
- Learning and playing games
- Drawing
- Sensory ability apps – balloons, fireworks, fish etc
- Puzzle and jigsaw games
- Digital board games, such as Connect4, Dominoes, Jin Rummy etc.
- Photo memories, news, etc.
