FEATUES

● PICK UP CLEAR

The bass is clear, the treble is bright, karaoke, live and music recording can be easily handled, release your charm. Better sound design with latest electro-acoustic technology, wide frequency response, high degree of human voice restoration, no distortion. The use of professional XLR audioconnector, flexible wire tensile strength is stronger to shield outside interference.

● Moving coil core

Super heart-shaped pickup effectively suppresses environmental noise and weaken background sound interference.

● METAL TUBE body

Aluminum alloy production process, metal mesh blowout preventer cover, wear resistance and corrosion resistance.

● Magnetic spring switch

Magnetic spring switch effectively eliminates the current collision sound of microphone switch

SPECIFICATION

Frequency Response Rate	40Hz ~ 12kHz
Style	Handheld Microphone, wired microphone
Material	Metal
Polar Pattern	Omni-directional
Signal To Noise Ratio	70dB
Maximum SPL	130dB
Sensitivity	-39dB±2dB
microphone Sensor Type	moving coil
Pickup mode	heart-shaped
Frequency response	40Hz-15KHz
Sensitivity	-54.5dBV
Microphone cable length	6m leads

Spare microphone covers available as option and XLR extension cables
