

# Professional Conference Amplifier

SKU:

## FEATUES

- High strength structural frame chassis, with symmetrical structure, quick assembly
- High energy linear power supply, high efficiency transformer
- Modular structure, high resolution, clear and delicate. Balanced, unbalanced input. Stereo, mono, bridging three output modes
- High sensitivity of safety protection circuit. Power supply, protection, signal, clipping LED working status indication
- Peak amplitude, power limit of soft starting system. With character of soft start circuit machine relay delay, ruby protecting speaker free
- Double Speaker and loudspeaker wiring column output. High efficiency dual fan cooling channel

## SPECIFICATIONS

Input sensitivity/impedance	500mv/20KΩ	
Output	8Ω	2X200W
consumption	4Ω	2x2350W
	Bridged 8Ω	600W
Frequency response	20Hz-20KHz	
S/N ratio	>90Db	
Wave Distortion	<0.05%	
Channel Crosstalk	<-70Db	
Output impedance	4~16Ω	
Power supply	220~230V	
N.W	12kg
