Rated Voltage	110 to 120 V
Rated Power of Light	45 W
Color Temperature	5500 K

Setting up Soft Box Light Stand

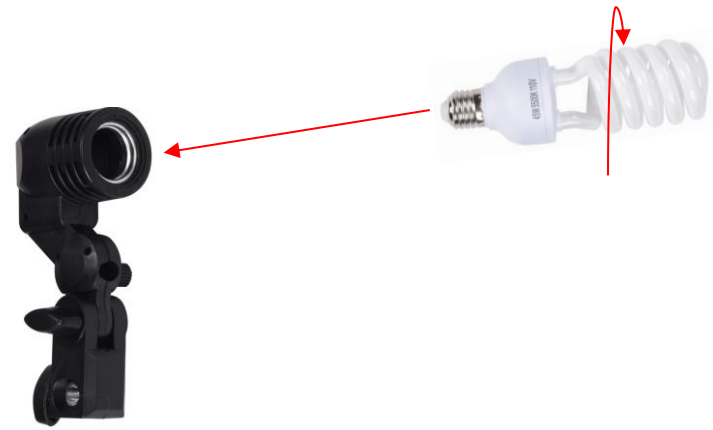

- 1**
-
- The diagram illustrates the first step of assembly. It shows a tripod-style stand with its legs folded inward. A dashed line and an arrow point to a circular inset showing a close-up of the top of the stand where a red arrow points upwards, indicating the direction to pull the top pole. A second dashed line and arrow point to another circular inset showing a close-up of the side knob on the leg, with a white arrow indicating it should be turned to lock the leg in its extended position.
1. Take out the plastic cover from the light stand
 2. Unfold the light stand as shown above. Remember to fasten the side knob to secure the stand.

2

Untighten the side knobs on the upper part of the light stand and then you can adjust the height. Remember to retighten the knob after you decide the height.

3

Install the bulb on the light base as shown.

4

Install the light base on the top of the light stand. Secure it by fastening the rear knob.

5

Fasten this knob.

Open the umbrella and thread its pole through the light base. Fasten the side knob to secure it.

6

Loosen the knob shown and you can adjust the angle of the light base. Remember retighten it after.

Setting up Backdrop Stands

1

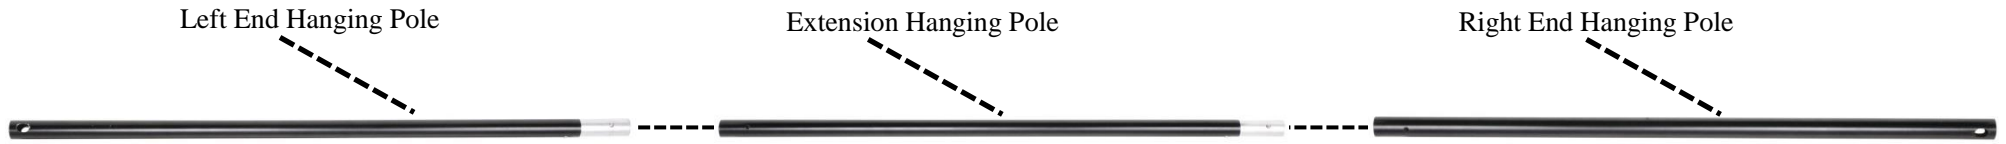

Unfold the two stands as shown above. Remember to fasten the side knobs to secure the stands.

2

Untighten the side knobs on the upper parts of the two stands and then you can adjust their heights. Remember to retighten the knobs after you decide the heights. Ensure that the two stands are of the same height.

Setting up Hanging Pole

OR

Connect the left end hanging pole, extension hanging pole and right end hanging pole together. If necessary, you can add one more extension hanging pole.

Setting up the Photography Backdrop Support Stand Kit

You can use the securing clip to further secure the backdrop.

1. Install the whole hanging pole onto the top of the two stands and secure them with the wing nuts. (The wing nuts are preinstalled on the top of the stands. You need to separate them from the stands first.)
2. Hang the backdrop cloth on the hanging pole and secure them with the four clips.
